The Bradwell is an 18 foot cruising yacht, offering to the owner more than usual comfort facilities and space found in boats of comparable size. The Bradwell 18 also offers sailing characteristics not unlike those of a dinghy. Yet being strong in construction has been proven under test to be exceptionally safe in adverse conditions. The drop keel allows the Bradwell to be trailed easily and launched with the minimum amount of effort and sits comfortably on most moorings. For trailing, the mast stores neatly on the superstructure and rigging is a quick, easy operation. The Bradwell 18 is now recognised as an excellent boat, designed by experts for the beginners and the next step up from dinghies and a good performer for the experienced cruiser sailor.

SPECIFICATION
